

Faraz Khoshbakhtian

EDUCATION

Ph.D., Industrial engineering, University of Toronto, Expected defense in 2025 (Current GPA: 4.0)

Thesis: Graph representation learning for a generalized and scalable solutions to the critical node detection problem, with applications to pandemic vaccination strategies

Supervisor: Dionne M. Aleman, Ph.D.

H.B.Sc., University of Toronto, 2020 (Cumulative GPA 3.7)

Concentrations: Computer Science, Statistics, and Philosophy

Areas of expertise

Graph neural networks; reinforcement learning; deep neural networks and training dynamics; distributed computing and big data analysis; operations research; combinatorial optimization; analysis and interpretability for machine learning; recommendation engines.

Professional experience

• Applied science internship, Mastercard, 2023-Present

A Mitacs Accelerate project; developing state-of-the-art network representation learning algorithms for universal node embeddings. Project focuses on development of novel self-supervised and reinforcement learning algorithms for generalized learning on graphs.

• Data scientist and software developer, Ctrl Designer, 2017-Present

Applied machine learning techniques such as reinforcement learning in software development to optimize and automate industrial processes.

• Data scientist, RBC, Summer 2021

Designed, implemented, and validated climate analytics tools using interpretable machine learning and statistics. Extensively used Hadoop and Spark to handle big data, train models, and interpret them.

• Developer and curriculum writer, Code at the Edge, 2018-2019

• Department assistant, Department of Philosophy, University of Toronto, Summer 2018

• Research assistant, Scholars in Residence, University of Toronto, Summer 2017

Intensive research project on China's cultural revolution and its effects on the marginalized population supervised by Dr. Yiching Wu.

Technical skills

Python, Java, C++, Julia; AWS; SageMaker; PyG and DGL; PyTorch and TensorFlow; GitHub Actions; CI/CD; Graph neural networks; Transformer architecture; Gurobi; database management systems; computer science and machine learning theory; neural network applications and interpretability; statistical learning; cloud computing; distributed computing.

Teaching experience

- **Head teaching assistant, University of Toronto, 2018-present**

- Courses: Big Data Science (MIE1628); Data Modelling (MIE253); Fundamentals of Object-Oriented Programming (MIE250); Fundamentals of Computer Programming (APS106); Introduction to Philosophy (PHL101)
- Responsibilities: Managing teams of TAs, preparing tutorial material, holding office hours, designing and marking assignments and exams.

Leadership and service

- **Co-Founder, Executive Member**, University of Toronto Students for a Free Iran, 2022-Present
- **Co-Director, Marketing Team**, ILead:Grad, University of Toronto Faculty of Applied Science & Engineering, 2020-2021
- **Co-Lead, Design Team**, Cyrus International Film Festival of Toronto, 2016-2018
- **Workshop Facilitator, Research Officer**, InDepth Conference at the Munk School of Global Affairs, 2016-2017

Awards

- Ontario graduate scholarship (OGS) (15,000) (2023-2024)
- MITACS Accelerate award (toward applied science internship at Mastercard) (15,000) (2023)
- Emerging and Pandemic Infections Consortium (EPIC) doctoral award (\$10,000) (2023)
- 6T6 Industrial Engineering 50th Anniversary Award in Healthcare Engineering (\$3,000) (2022)
- Faculty of Applied Science & Engineering Graduate Student Endowment Award (\$3,000) (2020)
- Woodsworth College Brookfield's Leadership Scholarship (\$6,000) (2018)
- Jackman Humanities Scholars in Residence Scholarship (\$1,500) (2017)
- Sam & Mary Restivo Family Admission Scholarship (\$1,200) (2015)
